Description

Discover why Seni is a frontrunner for disposable incontinence products in Europe. Its performance, durability, flexibility and of course comfort demonstrate why they are considered some of the best adult diapers available. The moisture wicking properties of the double absorbent core are the best feature of Seni's Active's Extra Dry System.

The core absorbs quickly to not only minimize moisture, but odor as well so you can go about your day feeling dry and remaining discreet. Though soft, delicate and cloth-like, the outer shell is waterproof and keeps you at ease with its extra security. You can enjoy a product that wears like real cloth underwear, but with the protection of an absorbent yet moisture-resistant diaper.

Comfort has clearly been kept in mind, with these briefs being comprised of numerous elastic threads that ensure that the product conforms accordingly to your body shape and made latex-free with those with skin sensitivities and allergies in mind. While these pull-on underwear are strong enough to hold one full bladder void, they can also tear easily at the seams for quick, convenient disposal when you are ready to freshen up.

Specifications:
